

BE België / Belgique / Belgien (BE) — Documentenregister / Registre des documents / Document Registry

Gezondheidseducatiesysteem / Système d'éducation à la santé / Health Education System:
EVRAS (FR) / Relationale en Seksuele Vorming (NL) / Beziehungs- und Sexualerziehung (DE) — 3 communities

Bioregion: Atlantic / Continental

Reform Status: Major reform — EVRAS mandatory in Fédération Wallonie-Bruxelles from 2023; Flanders own system

Dit register geeft een overzicht van alle geïdentificeerde brondocumenten voor België in het OneHealth EU-project.

Ce registre liste tous les documents sources identifiés pour la Belgique dans le projet OneHealth EU.

This registry lists all source documents identified for Belgium in the OneHealth EU project.

System Overview

Belgium has a **uniquely complex federal education system** divided into **three Communities**: the **Fédération Wallonie-Bruxelles (FWB)** (French-speaking, ~4.5M), the **Vlaamse Gemeenschap** (Flemish/Dutch-speaking, ~6.5M), and the **Deutschsprachige Gemeinschaft** (German-speaking, ~78,000). Each community has full autonomy over education. There is **no single Belgian health education system**.

- **FWB:** Introduced mandatory **EVRAS** (*Éducation à la vie relationnelle, affective et sexuelle*) from September 2023 — 5 hours/year minimum, with a structured progressive programme. The EVRAS framework is jointly supported by *Infor-Drogues*, *Questionsanté*, *FARES*, and other health organisations.
- **Flanders:** Health education is integrated across subjects; the *Eindtermen* (attainment targets) define health competencies. *Sensoa* is the Flemish centre for sexuality and health education.
- **German Community:** Smallest system; follows similar cross-curricular integration approach.

A. Fédération Wallonie-Bruxelles (FWB) — Communauté française

1. Décret du 20 juillet 2023 — EVRAS obligatoire dans les écoles de la FWB

- **Titre complet:** Décret relatif à l'éducation à la vie relationnelle, affective et sexuelle (EVRAS) dans les établissements scolaires de la Fédération Wallonie-Bruxelles
- **Type:** Decree / Décret | **Year:** 2023
- **Publisher:** Parlement de la Fédération Wallonie-Bruxelles

- **Description:** Makes EVRAS **mandatory** in all FWB schools from September 2023. Minimum of 5 hours/year per school level. Content covers: body, emotions, relationships, consent, sexuality, diversity, digital dimension. Schools must use trained animators from approved organisations. The most significant health education legislation in recent Belgian history.
 - **Access (FWB legislation):** <https://www.gallilex.cfwb.be>
 - **FWB EVRAS page:** <https://www.federation-wallonie-bruxelles.be/evras>
-

2. Guide EVRAS — *Guide de référence pour les animateurs*

- **Type:** Implementation guide / Guide de référence | **Year:** 2023–2024
 - **Publisher:** ONE / CEFO / FWB / Questionsanté
 - **Description:** The official EVRAS implementation guide for trained animators working in FWB schools. Defines age-appropriate content, methodology, and safe practice guidelines for each school level. Key operational document for EVRAS delivery.
 - **Access (ONE):** <https://www.one.be/index.php?id=evras>
-

B. Vlaamse Gemeenschap / Flemish Community

3. Eindtermen — *Attainment targets including health content (current edition)*

- **Type:** Attainment targets / Eindtermen | **Year:** 2019 (secondary); updated 2023
 - **Publisher:** Vlaamse overheid / Departement Onderwijs en Vorming
 - **Description:** The Flemish *Eindtermen* define what all students must know and be able to do at each educational level. Health-related competencies are distributed across multiple subject areas (Biology, Physical Education, Social Sciences). The 2019 reform strengthened health competency requirements.
 - **Access (Vlaanderen):** <https://onderwijs.vlaanderen.be/eindtermen>
-

4. Sensoa — *Gezondheid en Seksualiteit: Leermateriaal voor scholen*

- **Type:** Teaching resources / Leermateriaal | **Year:** Current
 - **Publisher:** Sensoa (Flemish centre for sexuality and health)
 - **Description:** Sensoa is the Flemish reference centre for sexuality education and sexual health. Develops and provides teaching materials for Flemish schools aligned with the *Eindtermen*. Key resources include the *Vlaams Actieplan Seksuele Gezondheid* and school-specific guides for different age groups.
 - **Access:** <https://www.sensoa.be/scholen>
-

C. Gezondheidsdaten / Données de santé / Health Data

5. HBSC België 2022 — Health Behaviour in School-aged Children

- **Type:** Research report | **Year:** 2022
- **Publisher:** Sciensano (national health institute) / WHO
- **Description:** Belgium's contribution to the international HBSC study, covering both Flemish and French-speaking communities. Data on health behaviours, wellbeing, and risk behaviours of Belgian adolescents. Sciensano coordinates health monitoring at federal level.
- **Access (Sciensano):** <https://www.sciensano.be/en/projects/health-behaviour-school-aged-children-hbsc>
