

DK Danmark / Denmark (DK) — Dokumentregister / Document Registry

Sundhedsuddannelsessystem / Health Education System: Sundheds- og seksualundervisning og familiekundskab (SSF) — mandatory subject

Bioregion: Nordic / Atlantic

Reform Status: SSF is an established mandatory subject; latest curriculum reform 2019–2024 (Folkeskole + Gymnasium)

Dette register indeholder alle identificerede kildedokumenter for Danmark i OneHealth EU-projektet.

This registry lists all source documents identified for Denmark in the OneHealth EU project.

System Overview

Denmark has a **centralised but school-autonomous** education system. The subject **Sundheds- og seksualundervisning og familiekundskab (SSF)** — Health, Sex and Family Education — is a **mandatory subject** in the *Folkeskole* (primary/lower secondary, grades 1–9). At upper secondary (*Gymnasium*), health content is integrated across subjects, particularly Biology and Social Studies. The **Undervisningsministeriet** (Ministry of Children and Education) sets national curriculum objectives, but schools have considerable pedagogical autonomy. Denmark is notable for its **strong school health service** (*Sundhedsplejerske* — school health nurse present in all schools) and evidence-based approach to health education.

A. Lovgrundlag / Legal Framework

1. Folkeskoleloven — *Lov om folkeskolen* (LBK nr. 1510 af 14/12/2023)

- **Type:** Act of Parliament / Lov | **Year:** 1993 (latest consolidated 2023)
 - **Publisher:** Undervisningsministeriet / Retsinformation
 - **Description:** The foundational law governing the Danish *Folkeskole* (municipal primary and lower secondary school). Establishes SSF as a mandatory subject for all students. Defines the overall purpose of the *Folkeskole* including health, wellbeing, and personal development as central goals.
 - **Access (Retsinformation):** <https://www.retsinformation.dk/eli/lt/2023/1510>
-

2. Bekendtgørelse om Folkeskolens undervisning i sundheds- og seksualundervisning og familiekundskab

- **Type:** Ministerial order / Bekendtgørelse | **Year:** Current
- **Publisher:** Undervisningsministeriet

- **Description:** The specific ministerial order defining the objectives, content, and time allocation for SSF in the *Folkeskole*. Covers grades 1–9, with increasing depth and complexity. Content areas include: body and development, relationships and sexuality, family structures, mental health, and lifestyle choices.
 - **Access (EMU — national education portal):** <https://www.emu.dk/modul/sundheds-og-seksualundervisning-og-familiekundskab>
-

B. Læseplaner og fagmål / Curricula and Subject Objectives

3. Fælles Mål — SSF (*Sundheds- og seksualundervisning og familiekundskab*)

- **Type:** National curriculum objectives / Fælles Mål | **Year:** 2019 (with updates)
 - **Publisher:** Undervisningsministeriet / EMU (Danmarks Læringsportal)
 - **Description:** The *Fælles Mål* (Common Objectives) for SSF define competence targets and content for each grade cluster (1–3, 4–6, 7–9). Key themes: body and sexuality, health and illness, family and social relationships, reproduction and contraception, diversity and identity. Available with accompanying teaching guides and exemplar materials on the EMU portal.
 - **Access (EMU):** <https://www.emu.dk/grundskole/sundheds-og-seksualundervisning-og-familiekundskab>
 - **Fælles Mål direct (Undervisningsministeriet):** <https://www.uvm.dk/folkeskolen/fag-timetal-og-overgange/faelles-maal>
-

4. Gymnasiereformen 2017 — Læreplaner for stx, htx, hhx (health content)

- **Type:** Upper secondary curriculum | **Year:** 2017 (reform); 2023 (updates)
 - **Publisher:** Undervisningsministeriet
 - **Description:** Reform of upper secondary education (*Gymnasium*) with new subject curricula. Health content at this level is primarily delivered through Biology (*Biologi*), Social Studies (*Samfunds-fag*), and Physical Education (*Idræt*). The reform introduced a stronger emphasis on critical thinking and scientific literacy in health topics.
 - **Access:** <https://www.uvm.dk/gymnasiale-uddannelser/fag-og-laereplaner>
-

C. Sundhedsdata / Health Data

5. HBSC Danmark 2022 — Health Behaviour in School-aged Children

- **Type:** Research report | **Year:** 2022 | **Publisher:** Statens Institut for Folkesundhed (SIF) / SDU / WHO
- **Description:** Denmark's contribution to the international HBSC study, coordinated by the National Institute of Public Health at the University of Southern Denmark. Key data on health behaviours, wellbeing, sexual health, and risk behaviours of Danish adolescents.
- **Access (SIF):** <https://www.sdu.dk/da/sif/rapporter/2022/hbsc>

6. Sundhedsstyrelsens vejledning — *Vejledning om seksualundervisning (most recent)*

- **Type:** Government guidance | **Year:** Current
- **Publisher:** Sundhedsstyrelsen (Danish Health Authority)
- **Description:** The Danish Health Authority's guidance on sex education in schools. Provides evidence-based recommendations on content, methodology, and coordination between schools and the health system. Covers topics including consent, STIs, contraception, and digital sexuality.
- **Access (Sundhedsstyrelsen):** <https://www.sst.dk/da/viden/boern-og-unge/seksualundervisning>
