

lv Latvija / Latvia (LV) — Dokumentu reģistrs / Document Registry

Veselības izglītības sistēma / Health Education System: Veselības mācība — Skola2030 reform; integrēts; Bioloģija; Sports

Bioregion: Nordic-Baltic

Reform Status: Skola2030 reform fully implemented 2023; competence-based curriculum

Šis reģistrs satur visu Latvijai OneHealth EU projektā identificēto avota dokumentu sarakstu.
This registry lists all source documents identified for Latvia in the OneHealth EU project.

System Overview

Latvia has undergone a significant education reform through the **Skola2030** programme, fully implemented in 2023. The reform introduced a **competence-based curriculum** (*kompetenču pieeja*) across all subjects. Health education (*Veselības mācība*) is integrated into multiple subject areas, particularly **Biology**, **Physical Education** (*Sports un veselība*), and **Social Sciences** (*Sociālās zinātnes*). Latvia has no standalone health education subject at secondary level, but the Skola2030 reform significantly strengthened health literacy as a competency. The **Slimību profilakses un kontroles centrs (SPKC)** provides health monitoring data.

A. Tiesiskais regulējums / Legal Framework

1. Izglītības likums — Education Law

- Type:** Act of Parliament / Likums | **Year:** 1998 (as amended)
- Publisher:** Saeima (Latvian Parliament)
- Description:** The foundational Latvian education law providing the legal basis for curriculum frameworks, school structure, and mandatory subject requirements. Provides context for the Skola2030 competence-based reform implementation.
- Access (likumi.lv):** <https://likumi.lv/ta/id/50759-izglitibas-likums>

2. Skola2030 — Mācību saturs un pieejas reforma

- Pilnais nosaukums / Full title:** Skola2030 — Kompetenču pieeja mācību saturā
- Type:** National curriculum reform | **Year:** 2017–2023 (phased implementation, full by 2023)
- Publisher:** Izglītības un zinātnes ministrija (IZM) / VISC (National Centre for Education)
- Description:** Latvia's national curriculum reform introducing competence-based learning across all subjects. Health literacy is integrated as a key competency. The reform defines learning outcomes for Biology and Physical Education that explicitly include health content: body and

health, reproduction, substance prevention, environmental health, wellbeing. Comprehensive documentation available at Skola2030 portal.

- **Access (Skola2030):** <https://www.skola2030.lv>
- **Curriculum materials (VISC):** <https://www.visc.gov.lv/lv/macibu-saturs>

B. Veselības dati / Health Data

3. HBSC Latvija 2022 — Health Behaviour in School-aged Children

- **Type:** Research report | **Year:** 2022 | **Publisher:** SPKC / WHO
- **Description:** Latvia's contribution to the international HBSC study. Data on health behaviours, sexual health, mental health, and wellbeing of Latvian adolescents. Coordinated by the Centre for Disease Prevention and Control (SPKC).
- **Access (SPKC):** <https://www.spkc.gov.lv/lv/hbsc>
